AMENDMENT

Sir:

This Amendment is being filed in response to the Patent Office Action dated November 5, 2002. Please amend the application as follows:

IN THE SPECIFICATION

At page 12, line 17, delete the word "compressive".

530
G1

Fig. 2 shows the locking and securing device 10 in an open and unsecured position. The securing mechanism 80 is held or suspended from the side rail 14 by the engagement member 110. In the embodiment shown, the engagement member 110 has a substantially L-shape; however, other shapes are also within the contemplated scope of the invention. The pin 82 of the securing mechanism 80
